Dear Dr. Sarad Prasad Mohapatra and Prof. Chitta Ranjan Barik,

Thank you very much for having sent the selected polygon. I will create the location place on iNaturalist in conjunction with the Podajalanga Forest area and add both locations to your standing campus observation project, which I will send to you by end of week. Once these locations are established on iNaturalist, any observations made at those sites will count for your campus project.

Thank you again for joining the network. It will be wonderful to see the observations that will come from your campus and biodiversity monitoring initiatives!

Best regards,
Katherine

Nature Positive Universities announcements

Dear Nature Positive Universities Community,

As we move towards the end of 2025, we are pleased to share with you some exciting announcements and updates from NPU!

So far this year, we've welcomed many new members to the network, including Nature Positive Pledges from five continents and a new cohort of Nature Positive Student Ambassadors to our 2025/26 programme. In 2025, we were delighted to have received Nature Positive Pledges from the below 29 institutions:

**For the very newest Pledged institutions, please note you will shortly be receiving your bespoke welcome mails from us - apologies for the delay!*

- American University of Sharjah
- Macquarie University
- Bergische Universität Wuppertal
- Madda Walabu University
- Bournemouth University
- Monash University
- Centro de Investigación y Transferencia Tecnológica Los Pinos de la Univerisdad Técnica de Manabía
- Murdoch University
- Facens University Center (Centro Universitário Facens)
- O.P. Jindal Global University
- Faculty of Management - SRM Institute of Science and Technology
- Pontificia Universidad Javeriana
- Government Women's College, Sundargarh
- SRM Dental College, Ramapuram
- Griffith University
- SRM Institute of Science and Technology, Faculty of Science and Humanities
- Grigore T. Popa University of Medicine and Pharmacy
- SRM TRP Engineering College
- King Abdullah University of Science and Technology
- Unidad Central del Valle del Cauca
- King Mongkut's University of Technology Thonburi
- Universidad Técnica de Manabí
- University of Augsburg
- University of Birmingham
- University of Kent
- University of Lausanne (UNIL)
- University of St Andrews
- University of Warwick
- Utrecht University

NATIONAL SEMINAR AT PANCHAYAT COLLEGE, BARGARH

Date:- 23.11.2025

The participation by Sri chitta Ranjan Barik , Asst prof in Botany , Govt.Women's college Sundargarh with 4 students of post graduate department of Botany, Attended the National Conference on "Next Generation Plant Research: Integrating Science, Technology & Sustainability (NGPRISTS-2025) as an Invited Speaker and Chairperson of a Technical Session" organized at PG Department of Botany, Panchayat College, Bargarh — two days of inspiring talks, great minds and endless learning in plant science.

PG Botany students had an enriching interaction with experienced taxonomists and conservationists at the Botanical Garden, Panchayat College, Bargarh. Learning beyond the classroom — identifying plants, understanding biodiversity & real conservation challenges.

Grateful for the experience and Success.

LETTER OF PARTNERSHIP

' Research Collaboration by Dr. Sarada Prasad Mohapatra, Assistant Professor and Head, Post Graduate Department of Botany Government Women's College Sundargarh with Scientists from Germany, Dr Ulrich Berk and Nigeria, Dr Okosodo Ehi Francis.

Federal Polytechnic, Ilaro

Directorate of Research and Development

Letter of Partnership

This letter expresses interest in establishing a meaningful and mutually beneficial **academic and research partnership** between two geographically distant yet intellectually aligned and culturally diverse institutions.

I am pleased to propose a collaborative research initiative between the **Federal Polytechnic, Ilaro, Ogun State, (Federal University of Technology Ilaro FUTII), Nigeria, and Government Women's College Sundargarh Odisha, India**. The Federal Polytechnic, Ilaro, a Federal Government-owned institution, is open to international academic cooperation and partnerships aimed at advancing research and innovation. The proposed collaboration will focus on research in the fields of **Ethnomedicine, Ecotourism, and Conservation Studies (Flora and Fauna)**. Dr. **Okosodo Ehi Francis** and Dr. **Sarada Prasad Mohapatra** will serve as the principal contact researchers representing both institutions and will jointly oversee the **first phase** of this partnership. This phase will involve co-authoring academic books and publishing collaborative research articles. The **second phase** of the collaboration will extend to the **Department of Tourism Management Technology** and the **Department of Botany** in both institutions. These departments will cooperate in organizing **academic conferences, workshops, and research exchange programs**, with opportunities for faculty and researcher visits between both schools. It is my sincere hope that this proposal will receive favorable consideration from your esteemed institution so that the collaborative research activities can commence without delay. I look forward to a productive partnership and the opportunity to work together on these significant research areas.

Yours sincerely,

Mr. Makanjuola Ilesanmi Adeyinka

Directorate of Research and Development

Deutsche Gesellschaft für Homa - Therapie e.V.

PRINCIPAL
GOVERNMENT WOMEN'S COLLEGE
SUNDARGARH, ODISHA, INDIA
www.gwcsng.ac.in

Dear Principal,

I am very happy to know that the students and staffs of your Institution are engaged in mass plantation and other environmental awareness programmes which are very much appreciable. I am also happy to know from Dr. Sarada Prasad Mohapatra that students and staff of Post Graduate department of Botany are interested for research on "Agnihotra and its implications in Environmental Sustainability" and not only Botany students in fact all students and staff can practice Agnihotra so as to purify the surroundings.

With the cooperation between your GOVERNMENT WOMEN'S COLLEGE and German Association for Homa Therapy (in German: Deutsche Gesellschaft für Homa-Therapie) a research lab can be established for research on "Agnihotra and its implication on Organic farming" under the guidance of Dr. Mohapatra as local Principal investigator.

I will happy to give guidance and supervision to all research activities of this lab and we can then publish research articles in reputed journals together and later on also can publish a book with all the results.

We can also jointly organize Conferences and Workshops in future.

Looking forward to cooperate with you in this research topic, very important to overcome the severe problems of pollution in all areas of our life!

With my best regards,

Dr. Ulrich Berk
